S-MAXXX
MAINTENANCE pellets

Crude Protein Content:
Minimum 18%

Production Highlights:

- Has Ideal Levels of PROTEINS, CARBOHYDRATES and AMINO ACIDS for better muscle maintenance.
- Optimal levels of vitamins and minerals highly recommended for physical and mental alertness.

Feeding Direction:

- **On maintenance** – given to birds at 80-100 grams/day for 6 months up.

- **On molting** – At the middle of the molting stage or when new feathers are about to grow, can be given in combination with high protein pellets (Fortifier 32™) on a 75:25 ratio to facilitate faster and healthy feathering.

Healthy Tips:

- Ensure availability of fresh and clean water at all times.
